### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jacob N. Erlich (Reg. No. 24,338) on 12/8/2006.

The application has been amended as follows:

#### **IN THE CLAIMS**

Claims 1-7 and 17-23 are canceled.

The following is an examiner's statement of reasons for allowance:

Claims 11-12, 26-30 are allowable over the prior art of record for at least the reason that even though the prior art discloses optical switching systems incorporating polarization-based separating and recombining sub-systems positioned on either end of a grating-based selectable switching/routing sub-system as well as a polarization-based separating/combining system comprising a pair of holographic gratings positioned in series, the prior art fails to teach or reasonably suggest, regarding claims 11-12, an optical switching/routing system comprising a polarization splitter/combiner and a patterned polarization converter, where the polarization splitter/combiner comprises a pair of polarization splitter/combiner gratings, and regarding

claims 26-30, a polarization separating/combining system comprising a patterned polarization converter optically coupled to first and second gratings of the pair of the polarization sensitive gratings, as set forth by the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
